

PlottingWindow

```
classDiagram
    class PlottingWindow
    class UniDec_datacollector_Network_Frame["UniDec.datacollector.Network Frame"]
    UniDec_datacollector_Network_Frame --|> PlottingWindow
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled "UniDec.datacollector.Network Frame". A blue arrow points vertically upwards from this box to a white box at the top labeled "PlottingWindow". This indicates that "UniDec.datacollector.Network Frame" inherits from "PlottingWindow".
